

Conewago Creek Initiative Stormwater Incentives Program

List of Pre-Qualified Technical Service Providers

(May 30, 2012)

The following list of firms have been pre-qualified to work with you on your project to provide engineering design and to build stormwater best management practices funded by the Conewago Initiative's Stormwater Incentives Program. Please note that not all firms listed provide build services. If you choose to work with a firm that does not provide build services, you must find a contractor to provide those build services. The design firm you choose to work with may be able to help you find a contractor. That contractor must submit its qualifications to the Conewago Initiative and be pre-qualified before work commences.

In addition, you may work with any firm not on this list, but in order to qualify for Conewago Initiative funding, that firm must be pre-qualified before work commences. Engineering design firms must provide construction oversight.

To initiate the qualification process for any firms not on this list or if you have any questions about the Stormwater Incentives Program, contact Matt Royer at (717) 948-6459, mroyer@psu.edu.

Firm	Services Provided		
	Engineering Design	Construction Oversight	Build
Aquatic Resources Restoration Co. (ARRC) 2433 Seven Valleys Road, Suite 202 Seven Valleys, PA 17360 (717) 428-9368 www.rrc1.com Contact: Lee Irwin, President	Yes (approved for riparian buffers and wetlands only)	Yes (approved for riparian buffers and wetlands only)	Yes (approved for riparian buffers and wetlands only)
